Diya Nair - Android Developer
GitHub: https://github.example.dev/diya

SUMMARY
Android developer with 2 years of experience building consumer mobile apps.

SKILLS
Kotlin, Java, SQLite, REST APIs, Git, Firebase, Agile

EXPERIENCE
Android Developer, StepUp Apps (2024 - present)
- Built workout tracking features in Kotlin for an app with 200,000 users.
- Connected the app to REST APIs and stored offline data in SQLite.
- Reduced crash rate by 40% through Git code reviews and testing.

PROJECTS
- Expense tracker Android app in Java, published on the Play Store.

EDUCATION
B.E. Computer Engineering, 2024
