Nikhil Bhat

Android Developer

Bengaluru, India | nikhil.bhat@example.com | +91 90000 10010

SUMMARY

Android developer with 3 years of experience building consumer apps in Kotlin and Java. Integrates REST APIs, stores data offline with Room and SQLite, and works on app speed and stability. Used to Git, code reviews and Agile teams.

SKILLS

Languages: Kotlin, Java
Android: Jetpack Compose, Room, SQLite, Retrofit, Coroutines, WorkManager
Services: REST API, Firebase (Crashlytics, Cloud Messaging)
Tools: Android Studio, Git, GitHub, Jira, Agile

EXPERIENCE

Android Developer, Stride Fitness Apr 2022 - Present

Bengaluru

- Built workout tracking screens in Kotlin and Jetpack Compose for an app with 800,000 users.
- Added offline mode with Room and SQLite, so workouts sync when the phone reconnects.
- Cut app start time from 2.4 to 1.1 seconds and crashes by 60%, tracked with Firebase Crashlytics.
- Reviewed about 10 pull requests a week in Git.

Junior Android Developer, Kadamba Apps Jul 2021 - Mar 2022

Mysuru

- Maintained 3 Java apps and connected them to REST APIs with Retrofit.
- Fixed 120 bugs reported from the Play Store.

PROJECTS

Expense Split, Play Store app 2023

- Kotlin app for sharing trip costs, 10,000+ downloads, rated 4.6.

EDUCATION

B.E. Computer Science, Chamundi Institute of Technology 2017 - 2021
